SECURITY OPTIONS

There are two primary ways to store coins in a self-serve environment: either inside the equipment in a coin box or in a vault that is installed beneath the meter to collect coins. Since vaults are cemented in on all sides, they are very difficult for thieves to break into. JE Adams provides the 2" threaded nipple and vault tube cover for most units (except air/vacs).

VAULT ASSEMBLIES

The vault assembly is to be used in conjunction with the form assembly (sold separately) to create the vault system. These assemblies hold \$550 in quarters.

8685-3100A VAULT ASSEMBLY FOR AIR MACHINES

ULTRA ISLAND CANOPIES & BASES

CANOPY FEATURES:

- Unique two-piece modular canopy design is more cost effective to ship
- Aluminum frame, poles and vinyl cover make the canopy lightweight, durable, and weather resistant – logo can be customized for an additional fee
- Easily assembles in about one hour
- Canopies come with fluorescent light fixtures with easy access to bulbs for replacement (bulbs not included)
- One section could be replaced if damaged at your location – unlike one-piece construction

ISLAND BASE ANCHORING INSTRUCTIONS:

Stainless steel interior frame is predrilled to accommodate 1/2" diameter expansion-style anchors. You determine the anchoring system that works best for your site. Island base frame must be anchored into cement.

BASE FEATURES:

- Total stainless steel construction including interior frame and vacuum platforms provide years of use while still looking like new
- Unique modular construction consists of three separate pieces (double vacuum island bases) and two separate pieces (single vacuum island base)
- Modular construction results in reduced freight costs; easily assembles without a forklift in about two hours
- Teepee mat holder with (4) mat clamps are permanently attached to the center module which cuts down on potential replacement parts
- Modular design allows for replacement of any section or part if damaged at your location (unlike one-piece designed islands requiring total replacement)
- Trash service door is secured with (2) Medeco cam locks and trash can be deposited from four directions into container
- Slide-out trash removal is readily accessible by door (instead of heavy and messy lifting)
- Optional end vaults are available
