ERGONOMIC WORKSTATIONS

*WHAT DO YOU WANT TO
BUILD TODAY?*

LEAN THINKING LEADS TO PRODUCTIVE ACTIONS

When the actions of lean solutions are acted upon, time and money will be saved! By creating lean processes that fit your business, you are thinking what is best for you. Create custom systems that fit your business or project requirements.

**ERGONOMICS
REDUCES COST**

**LOWER LABOR
COSTS OR COSTS**

**INCREASE IN
PRODUCTIVITY**

CUSTOMIZE YOUR WORKSTATION

Not all out of the box workstations are going to work with your workspace. Customize your workstation to fit your specific space, optimize your production, and eliminate waste!

With the wide variety of products that TSLOTS offers, we will be able to accommodate your application. From part bins, adjustable monitor arms and mounted lights, you can create the most efficient workstation possible.

The unique design of the T-slotted extrusion allows you to create a pressure manifold, turning an entire frame into a pressurized workstation.

MOBILITY

Make your workstation mobile! If you have a complex process with a lot of moving parts, make your cart move with your process! Choose from our variety of different casters and maximize your efficiency and output.

MOBILITY & MODULARITY

BEFORE

AFTER

MODULARITY

Every process continues to evolve as new and innovative ways of doing business are developed. The modularity of TSLOTS products allows your workstation to expand and grow with your business.

DESIGN YOUR WORKSTATION

DESIGN

Not sure where to start in designing your workstation? We have created a few preconfigured frames. Download these and adjust them to fit the space and requirements needed.

We offer a basic, intermediate, and a more complex frame. Choose the add-on accessories that suite you best and submit for quotation today.
